NURSERY STOCK FOR
TRANSPLANTING

Terms and Conditions of Sale

TERMS: Cash or satisfactory reference before shipping from those who have not established satisfactory credit relations with us.

C. O. D. orders should be accompanied by not less than one-fourth of the amount of order.

SHIPPING: The Missouri Pacific and Santa Fe Railroads and the American Railway Express afford excellent shipping facilities.

TRANSPORTATION CHARGES are to be paid by the purchaser. Small items may be sent Parcel Post, with postage added to the invoice price. When no shipping instructions are given we will use our best judgment in forwarding orders. Texas shipments travel at special low or second class rates by express.

SAMPLES of small transplanting stock will be sent on request. Our stock is grown in the open field in beds and nursery rows—on new land and is strong, well established and well rooted.

PACKING carefully done. All small stock will be carefully dug and roots puddled and well packed as light as practicable.

QUANTITIES: Not less than 25 at 100 rates, not less than 250 at 1000 rates.

All orders accepted subject to stock being unsold on receipt of order. Claims for any cause should be made immediately on receipt of stock and will receive our careful attention.

SHIPPING SEASON: In our mild climate most stock may be safely shipped from October till May, but deciduous stock is more safely handled during the period of dormancy.

*Yucca Tamarisk and Oleander along
Galveston Highway*

FOREWARD

.....

By way of introduction, Teas Wholesale Nursery is located about 40 miles north of Houston, up in the fertile sandy land of the "Pineywoods" of East Texas, on new ground, where conditions are most favorable for propagation and plant growth.

Our land ranges from peat bogs with unfailing springs and running streams, through all the gradations of black, red, sandy and gravelly soils underlaid with a heavy clay subsoil and is adapted to the production of strong, healthy, well-rooted nursery stock, in greatest variety, which together with our long growing season and opportunity for irrigation, gives us ideal nursery conditions.

It is our aim to grow and supply superior nursery stock handled in the best possible manner, and we believe that our clients will find it to their advantage to let us supply their needs, and that our friends, old and new, will find our products as good as can be grown, prices reasonable, treatment generous and our service satisfactory.

Teas Wholesale Nursery of Conroe, Montgomery County, Texas, is a branch of Teas Nursery Company of Houston, but is conducted independently and all sales and contracts are handled separately and all communications should be addressed to Teas Wholesale Nursery, Conroe, Texas.

CARMEN A. WALTON,
General Manager,
Conroe, Texas.

EDWARD TEAS,

SYCAMORE, <i>Platanus occidentalis</i>.			
2 to 3 ft.....	\$1.50	\$12.00
SOPHORA japonica, see Shrubs.			
SWEETBERRY	\$1.50

Chinese Tallow Trees in subdivision planting. Many of them grew from about an inch to eight inches in diameter in two and a half years.

TALLOWTREE, Chinese, *Sapium sebiferum*. New, from China. Most rapid growing and universally satisfactory shade and ornamental tree for the warmer sections of the South. Foliage handsome, dense, dark green, assuming most gorgeous autumn coloring; seems free from all insect pests. Tallowtrees in the nursery, under favorable conditions, have grown 14 feet, and 3 inches in diameter in two years. We recommend this tree above all others for street and subdivision planting. It seems to do well in all soils, endure drouth and excessive wet periods. Very easily transplanted and grows

TEAS WHOLESALE NURSERY, CONROE, TEXAS

	Per 10	Per 100	Per 1000
under adverse conditions and neglect. We believe this tree will become as popular in the South as the Chinese Elm has become in the North and West. Anticipating the demand for it, we have grown a large stock of vigorous trees.

~~~~~

*"Des a li'l' cabin in de shadder er de pines,  
Frame wid honeysuckles en de mornin' glory  
vines."*

*"Des a li'l' cabin whar de blue smoke rise en curl,  
Kin hol' enough er happiness ter reach eroun'  
de worl'!"* ☆ ☆

*Dis word de sweet word said--*

*"Give us our daily bread"*

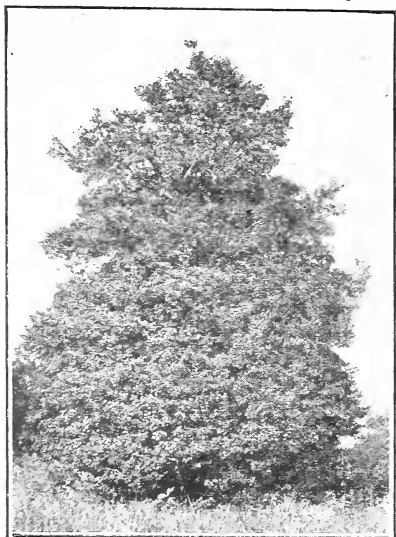

*Singin' en singin' in de mawnin'."*

FRANK L. STANTON

~~~~~

Visitors will find the "Cabin in the Clearing" an interesting place, nested away in the big woods of East Texas, where giant Magnolias and Holly trees, centuries old, grow to enormous size, among the almost endless forms of plant life—the rich alluvial land along the streams is carpeted with ferns and wild flowers and the margins of springs and brooks are bordered with Cardinal Lobelias. In the spring the Red Buds and Dogwoods are festooned with the native yellow Jasmine and overhead are the "whispering pines."

~~~~~

*AMERICAN HOLLY*

---

The illustration shows an American Holly Tree, planted more than 50 years ago at Carthage, Mo. by John C. Teas, who founded the Teas Nurseries in Indiana in 1843, and moved to Mo. in 1868.

This tree came by mail from New Jersey and every winter is ablaze with red berries.
